A. It is the intention of the Oklahoma State Legislature through this act to focus on the importance of child-centered, play-based learning as the most rigorous and most developmentally appropriate way for children in the early childhood grade levels to learn literacy, science, technology, engineering, art and math academic concepts.

1 B. As used in this section:

2 1. "Child-directed" means interaction in which the child is
3 helped to direct and lead the play in any way the child wishes,
4 unless there is harmful or destructive activity;

6 3. "Early childhood education" means pre-k, kindergarten, first
7 grade, second grade and third grade;

3 create a learning environment that facilitates child-directed
4 experiences based upon developmentally appropriate early childhood
5 practices and intentional, sustained, play-based learning
6 opportunities, including, but not limited to, movement, creative
7 expression, exploration, socialization, reading for pleasure, art,
8 music and dramatic play. The art instruction may adhere to pre-k
9 standards for fine arts, which include dance, drama, music and
10 visual arts, as approved by the State Department of Education.
11 Educators may develop physical, social, emotional, cognitive and
12 academic learning opportunities in all curricular domains, which may
13 include unstructured time for the discovery of each child's
14 individual needs, abilities and talents.

15 D. In support of play-based learning in Oklahoma public
16 schools, school districts may provide ongoing early childhood
17 professional development for early childhood educators and
18 administrators, which may include existing early childhood
19 professional development programs from the State Department of
20 Education.
