18 Section 3. A. For the purposes of this section, a "subject

12 implementation of statutes relating to the operation of mines that
13 may affect sensitive sole source groundwater basins or subbasins,
14 the Legislature hereby declares and establishes a moratorium on the
15 following actions:

17 permit or other administrative authorization for the appropriation,

21 mine; and

23 to subsection D of Section 1020.2 of Title 82 of the Oklahoma
24 Statutes, Section 785:30-15-5 of the Oklahoma Administrative Code or

1 any other provision of law, any offset to the consumptive use of
2 water of a subject mine where such offset is based on a claimed
3 augmentation of stream flow or groundwater.

4 C. The moratorium shall be in effect until such time as the
5 Board, working in coordination with the Department of Environmental
6 Quality, the Department of Mines, and East Central University and in
7 cooperation with federal and tribal governmental agencies with

14 matter both of incremental and cumulative effect, whether a proposed
15 withdrawal of groundwater from a sensitive sole source groundwater
16 basin or subbasin would degrade or interfere with springs and
17 streams emanating therefrom;

18 2. Promulgates final rules to integrate the use of such studies
19 and tools to administrative implementation of:

20 a. waste, degradation and interference analyses required
21 by subparagraphs c and d of paragraph 1 and
22 subparagraphs c and d of paragraph 2 of subsection A
23 of Section 1020.9 of Title 82 of the Oklahoma
24 Statutes,

1 b. uniform minimum standards and requirements for the
2 development of, and annual reporting regarding
3 compliance with, site-specific water management and
4 conservation plans pursuant to Section 1020.2 of Title
5 82 of the Oklahoma Statutes, with particular regard to
6 methodologies for calculating amounts claimed in
7 consumptive use of water and any claimed augmentation
8 of stream flow or groundwater, and

9 c. consultation, review and approval of such site-
10 specific water management and conservation plans, with
