19 BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

23 A. Patients who are capable of self-administering their own
24 medications without assistance shall be encouraged and allowed to do

1 so. However, a certified nurse aide may assist a patient whose
2 condition is medically stable with the self-administration of
3 routine, regularly scheduled medications that are intended to be
4 self-administered, if the following conditions are met:

5 1. For an oral medication, the medication shall have been

20 D. For purposes of this section, assistance with self-
21 administration of medication includes:

22 1. Taking an oral medication out of a pill planner and bringing
23 it to the patient;

1 2. Placing an oral dosage in the patient's hand or placing the

8 the request of a competent patient;

9 10. Medications for which the time of administration, the
10 amount, the strength of dosage, the method of administration or the
11 reason for administration requires judgment or discretion on the
12 part of the certified nurse aide; or

13 11. Assistance with the self-administration of medication by a
14 certified nurse aide in an assisted living center through home care
15 services as provided for in Section 1-890.8 of Title 63 of the
