

STATE OF OKLAHOMA

2nd Session of the 57th Legislature (2020)

SENATE BILL 1918

By: Standridge

AS INTRODUCED

An Act relating to controlled dangerous substances;  
amending Section 5, Chapter 175, O.S.L. 2018, as last  
amended by Section 19, Chapter 428, O.S.L. 2019 (63  
O.S. Supp. 2019, Section 2-309I), which relates to  
prescription limits and rules for opioid drugs;  
providing certain liability protections; and  
providing an effective date.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY Section 5, Chapter 175, O.S.L.  
2018, as last amended by Section 19, Chapter 428, O.S.L. 2019 (63  
O.S. Supp. 2019, Section 2-309I), is amended to read as follows:

Section 2-309I. A. A practitioner shall not issue an initial  
prescription for an opioid drug in a quantity exceeding a seven-day  
supply for treatment of acute pain. Any opioid prescription for  
acute pain shall be for the lowest effective dose of an immediate-  
release drug.

B. Prior to issuing an initial prescription for an opioid drug  
in a course of treatment for acute or chronic pain, a practitioner  
shall:

1        1. Take and document the results of a thorough medical history,  
2 including the experience of the patient with nonopioid medication  
3 and nonpharmacological pain-management approaches and substance  
4 abuse history;

5        2. Conduct, as appropriate, and document the results of a  
6 physical examination;

7        3. Develop a treatment plan with particular attention focused  
8 on determining the cause of pain of the patient;

9        4. Access relevant ~~prescription monitoring~~ prescription-  
10 monitoring information from the central repository pursuant to  
11 Section 2-309D of this title;

12        5. Limit the supply of any opioid drug prescribed for acute  
13 pain to a duration of no more than seven (7) days as determined by  
14 the directed dosage and frequency of dosage; provided, however, upon  
15 issuing an initial prescription for acute pain pursuant to this  
16 section, the practitioner may issue one (1) subsequent prescription  
17 for an opioid drug in a quantity not to exceed seven (7) days if:

18            a. the subsequent prescription is due to a major surgical  
19 procedure or "confined to home" status as defined in  
20 42 U.S.C., Section 1395n(a),

21            b. the practitioner provides the subsequent prescription  
22 on the same day as the initial prescription,

23            c. the practitioner provides written instructions on the  
24 subsequent prescription indicating the earliest date  
25

1 on which the prescription may be filled, otherwise  
2 known as a "do not fill until" date, and

3 d. the subsequent prescription is dispensed no more than  
4 five (5) days after the "do not fill until" date  
5 indicated on the prescription;

6 6. In the case of a patient under the age of eighteen (18)  
7 years old, enter into a patient-provider agreement with a parent or  
8 guardian of the patient; and

9 7. In the case of a patient who is a pregnant woman, enter into  
10 a patient-provider agreement with the patient.

11 C. No less than seven (7) days after issuing the initial  
12 prescription pursuant to subsection A of this section, the  
13 practitioner, after consultation with the patient, may issue a  
14 subsequent prescription for the drug to the patient in a quantity  
15 not to exceed seven (7) days, provided that:

16 1. The subsequent prescription would not be deemed an initial  
17 prescription under this section;

18 2. The practitioner determines the prescription is necessary  
19 and appropriate to the treatment needs of the patient and documents  
20 the rationale for the issuance of the subsequent prescription; and

21 3. The practitioner determines that issuance of the subsequent  
22 prescription does not present an undue risk of abuse, addiction or  
23 diversion and documents that determination.

1 D. Prior to issuing the initial prescription of an opioid drug  
2 in a course of treatment for acute or chronic pain and again prior  
3 to issuing the third prescription of the course of treatment, a  
4 practitioner shall discuss with the patient or the parent or  
5 guardian of the patient if the patient is under eighteen (18) years  
6 of age and is not an emancipated minor, the risks associated with  
7 the drugs being prescribed, including but not limited to:

8 1. The risks of addiction and overdose associated with opioid  
9 drugs and the dangers of taking opioid drugs with alcohol,  
10 benzodiazepines and other central nervous system depressants;

11 2. The reasons why the prescription is necessary;

12 3. Alternative treatments that may be available; and

13 4. Risks associated with the use of the drugs being prescribed,  
14 specifically that opioids are highly addictive, even when taken as  
15 prescribed, that there is a risk of developing a physical or  
16 psychological dependence on the controlled dangerous substance, and  
17 that the risks of taking more opioids than prescribed or mixing  
18 sedatives, benzodiazepines or alcohol with opioids can result in  
19 fatal respiratory depression.

20 The practitioner shall include a note in the medical record of  
21 the patient that the patient or the parent or guardian of the  
22 patient, as applicable, has discussed with the practitioner the  
23 risks of developing a physical or psychological dependence on the  
24 controlled dangerous substance and alternative treatments that may

1 be available. The applicable state licensing board of the  
2 practitioner shall develop and make available to practitioners  
3 guidelines for the discussion required pursuant to this subsection.

4 E. At the time of the issuance of the third prescription for an  
5 opioid drug, the practitioner shall enter into a patient-provider  
6 agreement with the patient.

7 F. When an opioid drug is continuously prescribed for three (3)  
8 months or more for chronic pain, the practitioner shall:

9 1. Review, at a minimum of every three (3) months, the course  
10 of treatment, any new information about the etiology of the pain,  
11 and the progress of the patient toward treatment objectives and  
12 document the results of that review;

13 2. In the first year of the patient-provider agreement, assess  
14 the patient prior to every renewal to determine whether the patient  
15 is experiencing problems associated with an opioid use disorder and  
16 document the results of that assessment. Following one (1) year of  
17 compliance with the patient-provider agreement, the practitioner  
18 shall assess the patient at a minimum of every six (6) months;

19 3. Periodically make reasonable efforts, unless clinically  
20 contraindicated, to either stop the use of the controlled substance,  
21 decrease the dosage, try other drugs or treatment modalities in an  
22 effort to reduce the potential for abuse or the development of an  
23 opioid use disorder as defined by the American Psychiatric  
24 Association and document with specificity the efforts undertaken;

1       4. Review the central repository information in accordance with  
2 Section 2-309D of this title; and

3       5. Monitor compliance with the patient-provider agreement and  
4 any recommendations that the patient seek a referral.

5       G. 1. Any prescription for acute pain pursuant to this section  
6 shall have the words "acute pain" notated on the face of the  
7 prescription by the practitioner.

8       2. Any prescription for chronic pain pursuant to this section  
9 shall have the words "chronic pain" notated on the face of the  
10 prescription by the practitioner.

11       H. This section shall not apply to a prescription for a patient  
12 who is currently in active treatment for cancer, receiving hospice  
13 care from a licensed hospice or palliative care, or is a resident of  
14 a long-term care facility, or to any medications that are being  
15 prescribed for use in the treatment of substance abuse or opioid  
16 dependence.

17       I. Every policy, contract or plan delivered, issued, executed  
18 or renewed in this state, or approved for issuance or renewal in  
19 this state by the Insurance Commissioner, and every contract  
20 purchased by the Employees Group Insurance Division of the Office of  
21 Management and Enterprise Services, on or after November 1, 2018,  
22 that provides coverage for prescription drugs subject to a  
23 copayment, coinsurance or deductible shall charge a copayment,  
24

1 coinsurance or deductible for an initial prescription of an opioid  
2 drug prescribed pursuant to this section that is either:

3 1. Proportional between the cost sharing for a thirty-day  
4 supply and the amount of drugs the patient was prescribed; or

5 2. Equivalent to the cost sharing for a full thirty-day supply  
6 of the drug, provided that no additional cost sharing may be charged  
7 for any additional prescriptions for the remainder of the thirty-day  
8 supply.

9 J. Any practitioner authorized to prescribe an opioid drug  
10 shall adopt and maintain a written policy or policies that include  
11 execution of a written agreement to engage in an informed consent  
12 process between the prescribing practitioner and qualifying opioid  
13 therapy patient. For the purposes of this section, "qualifying  
14 opioid therapy patient" means:

15 1. A patient requiring opioid treatment for more than three (3)  
16 months;

17 2. A patient who is prescribed benzodiazepines and opioids  
18 together for more than one twenty-four-hour period; or

19 3. A patient who is prescribed a dose of opioids that exceeds  
20 one hundred (100) morphine equivalent doses.

21 K. 1. A licensed practitioner with appropriate prescriptive  
22 authority shall not be criminally or civilly liable solely for  
23 prescribing an opioid drug if:

- 1           a. the prescribed dosage does not exceed the maximum  
2           dosage amounts in the package insert provided by the  
3           drug manufacturer and approved by the Food and Drug  
4           Administration (FDA), and  
5           b. the practitioner obtains a signed statement from the  
6           patient notifying the practitioner of any other opioid  
7           drug or controlled dangerous substance the patient is  
8           taking, if any, and the practitioner confirms that any  
9           resulting total amount of opioid drugs prescribed do  
10           not exceed the maximum dosage amounts in the package  
11           insert provided by the drug manufacturer and approved  
12           by FDA.

13           2. A licensed pharmacist or licensed pharmacy shall not be  
14           criminally or civilly liable solely for dispensing an opioid drug  
15           if:

- 16           a. the dispensed dosage does not exceed the maximum  
17           dosage amounts in the package insert provided by the  
18           drug manufacturer and approved by the FDA, and  
19           b. the licensed pharmacist or pharmacy responsible for  
20           dispensing the drug pursuant to a prescription  
21           confirms verbally with the prescriber or the  
22           prescriber's representative that a patient  
23           notification as provided by subparagraph b of  
24           paragraph 1 of this subsection has been received and

1                   the pharmacist notes this in the record for the  
2                   prescription.

3       SECTION 2.   This act shall become effective November 1, 2020.
