

BILL SUMMARY
1st Session of the 57th Legislature

| | |
|------------------------|---------------------------------------|
| Bill No.: | HB 2097 |
| Version: | FULLPCS1 |
| Request Number: | 8012 |
| Author: | Rep. O'Donnell |
| Date: | 2/21/2019 |
| Impact: | Corp. Comm.: Negligible impact |

Research Analysis

The Proposed Committee Substitute for HB 2097 provides that certain operations in private or public easements or rights-of-way are included within the definition of *excavate* in the Oklahoma Underground Facilities Damage Prevention Act. The measure also requires underground facility operators to locate and mark their facilities prior to the date and time excavation work is scheduled to begin.

Prepared By: Sean Webster

Fiscal Analysis

After analysis, the pipeline safety director in transportation at the Corporation Commission anticipates the measure, as written, will have only a negligible impact to the agency.

Prepared By: Jenny Mobley

Other Considerations

None.
