Research Analysis

The PCS for HB 2476 exempts funeral, cremation and embalming establishments from the Department of Environmental Quality's agency rules regarding industrial wastewater systems. In the case of a spill, leak, or release of industrial wastewater, the measure requires these establishments, which are governed by the Oklahoma Funeral Board, to take immediate action to contain and remediate the spill, notify adjacent landowners as soon as possible, and report it by phone to the DEQ within 24 hours and in writing within seven days.

Fiscal Analysis

After analysis, the measure as written is anticipated by the Department of Environmental Quality to cause a loss of approximately \$5,000 annually to the DEQ Industrial Wastewater Division. This anticipated impact would be based on the five facilities currently being permitted under the current provision.
