**Research Analysis**

HB3142, as introduced, provides for some flexibility in the certification requirements of a school principal.

Currently, a school principal must complete a standard master's degree, and a program in education administration approved by the Oklahoma Commission for Teacher Preparation with an emphasis on curriculum, instruction and building-level relationships.

HB 3142 would allow a person who has completed a master's degree program in education that includes competencies that are substantially equal to those listed in the above paragraph, to qualify for the principal certification requirements as long as their master's degree was completed between July 1, 2005 and November 1, 2020.
