Research Analysis

The Committee Substitute for HB 3272 authorizes a board of county commissioners to employ information technology (IT) staff, in addition to the previously-authorized data processing technician. The measure also removes a requirement that the data processing technician employed by a board of county commissioners may not be employed beyond the term of the board.

Prepared By: Sean Webster

Fiscal Analysis

The measure relates to county information technology staff, removing a provision limiting the employment of any such staff beyond the term of the employing commissioner. No fiscal costs or savings are anticipated.
