Fiscal Analysis

FA1 on HB 3377 reduces the penalties from those listed in the introduced version of the measure: length of sentence in Dept. of Corrections' (DOC) custody from 5 to 2 years and reducing the maximum fine from \$5,000 to \$3,000. This could present some savings for the Dept. Corrections if this amendment is adopted versus the introduced version. Currently, it costs \$60.11/day or \$21,940/year for DOC to incarcerate one individual.
