

**BILL SUMMARY**  
2<sup>nd</sup> Session of the 57<sup>th</sup> Legislature

<b>Bill No.:</b>	<b>HB 3804</b>
<b>Version:</b>	<b>INT</b>
<b>Request Number:</b>	<b>9420</b>
<b>Author:</b>	<b>Rep. Hasenbeck</b>
<b>Date:</b>	<b>2/14/2020</b>
<b>Impact:</b>	<b>Consultation with OSDE is ongoing</b>

**Research Analysis**

HB 3804, as introduced, modifies what qualifies as a computer science course as it pertains to high school graduation requirements.

Computer science courses focusing on business computer applications such as word processing, databases, spreadsheets, graphics, or keyboarding and typing, would no longer qualify as meeting the high school graduation requirements.

The measure also mandates that in order for a computer science course to count toward a student's mathematics requirement, it must include the study and use of technology to problem solve, including identifying and testing of solutions through algorithms and programming.

Prepared By: Emily Wendler

**Fiscal Analysis**

Consultation with the State Department of Education regarding any fiscal impact relating to this measure is ongoing.

Prepared By: Cole Stout

**Other Considerations**

None.
