Research Analysis

SB 716 creates new fees for any manufactured home manufacturer who sells a new manufactured home to be shipped to or sited in the state. The fee is \$75.00 for each new single-wide manufactured home and \$125.00 for each new multi-floor manufactured home. A used manufactured home inspection fee of \$75.00 is to be paid by the installer at or before the time of installation.

Fiscal Analysis

The measure includes an installation inspection fee for new homes (\$75.00 for single-wide homes and \$125.00 for multi-floor homes) shipped or sited in the state and inspection fee (\$75.00) paid by the installer for used manufactured homes sited in the state.

Housing data related to installations are limited, however based on US. Census Bureau data on 2017 shipments to Oklahoma fee revenue could total in excess of \$100,000. More data is necessary to provide a more precise estimate.
