Research Analysis

SB 721 deletes language designating the Oklahoma Bondsman Association as the education provider for bail bondsman licensure.

Fiscal Analysis

SB 721, which strikes language regarding the specific entity which is responsible for providing education for bail bonds(wo)men, has no fiscal or revenue considerations for the state. The education provider (whatever entity becomes responsible) is still required to pay the existing biannual \$200 fee. Therefore, the revenue will stay the same.
