

Bill Summary
2nd Session of the 57th Legislature

Bill No.:	HB 3051
Version:	ENGR
Request No.:	
Author:	Sen. Allen
Date:	03/19/2020

Bill Analysis

HB 3051 modifies the term “rural area” in the Rural Water, Sewer, Gas and Solid Waste Management Districts Act by increasing the population threshold from 10,000 to 25,000 for eligible municipalities. The measure also increases the cap on the amount that rural water districts can charge per 1,000 gallons of water from 10 to 20 cents and allows the district to spend the money on water sustainability assessments.
