**Bill Analysis**

SB 1169 updates and adds definitions relating to the Oklahoma Board of Private Vocational Schools, as well as empowers the Board to create a sustained license and to provide corrective action plans. The measure also allows the Board to fix standards for increasing the required amount of surety bond or certificate of deposit, for requiring a school to implement a corrective action plan to resolve compliance and operational issues, for requiring a licensing applicant or licensed school to provide copies of correspondence with the U.S. Department of Education, for requiring a school to suspend new enrollments requiring a school to submit a teach-out plan, and for developing optional training to schools. The Board may conduct site visits and invoice travel fees related to site visits. The measure also authorizes the Board to require a school to suspend new enrollments, submit to the Board a teach-out plan or teach-out agreement, increase the surety bond or certificate of deposit amounts and take other action when a corrective action plan fails.
