

Bill Summary
2nd Session of the 57th Legislature

| | |
|---------------------|-------------------|
| Bill No.: | SB 1225 |
| Version: | CS |
| Request No.: | 3894 |
| Author: | Sen. Allen |
| Date: | 02/20/2020 |

Committee Substitute (CS)

The CS for SB 1225 limits, as it relates to the Oklahoma Underground Facilities Damage Prevention Act, the proposed area of work specified in the notice given by an excavator to an operator to 500 linear feet in incorporated areas and one linear mile in unincorporated areas. The CS also requires agencies approving certified projects and preengineered projects to consult with the statewide one-call notification center and provides public agencies, as defined in the Act, with access to the record of underground facilities.
