

Bill Summary
2nd Session of the 57th Legislature

Bill No.:	SB 1277
Version:	INT
Request No.:	3312
Author:	Sen. Rader
Date:	01/12/2020

Bill Analysis

SB 1277 authorizes members of the Opioid Overdose Fatality Review Board to access the central repository to carry out its prescribed duties. The measure also shortens the time from 180 days to 30 days as it relates to the previous access and check made on a patient seeking to obtain opiates. The measure repeals duplicative sections of law related to maintaining the confidentiality of information obtained from the central repository.
