Bill Analysis

SB 128 authorizes state agencies to pay employees on an “on-call” basis. Employees must be notified if they are subject to on-calls. Pay and compensation for classified employees will be equivalent to one hour of their time on the weekday and two hours of their time on the weekend for a single day on-call in addition to the time spent working on these days. Agencies will be prohibited from adjusting employee hours for these hours of on-call duty. The measure also repeals current law governing on-call compensation.
