Bill Analysis

SB 1431 directs every state agency with oversight responsibilities related to occupational licenses who has the authority to issue administrative fines to develop rules and procedures for individuals physically or financially injured as a direct result of a licensee's violation of the license provisions to request and receive all or a part of the amount of such administrative fines collected as restitution for their personal injury. The responsible agency shall determine the amount of restitution. The provisions of this measure shall be implemented no later than November 1, 2020.
