Committee Substitute (CS)

The CS for SB 1487 clarifies that no local government entity is required to create a website solely to provide notification for a vote authorizing the incurring of a general bond. The measure requires local governments to provide a description of previously issued bonds that will remain outstanding on the date of the election of the new bonds to be approved and provides for local governments to post the description at the principal office of the public body if no newspaper of general circulation is available in the area. The information must remain posted through the election of the bonds to be approved.
