Bill Analysis

SB 1705 directs that the assessment or assessments required to graduate from a public high school to be selected by each school district from a list of State Board of Education-approved assessments beginning with the 2020-21 school year. The measure states that the official state assessment or assessments will be the one selected by a majority of districts over the previous three years and directs each school district to notify the Board by August 1 each year of which assessment or assessments it will be using. If a district does not select an assessment, the measure requires the use of the official state assessment or assessments.
