

Bill Summary
2nd Session of the 57th Legislature

Bill No.:	SB 1887
Version:	INT
Request No.:	3587
Author:	Sen. Ikley-Freeman
Date:	01/29/2020

Bill Analysis

SB 1887 directs the Insurance Department to examine the feasibility of requiring health benefit plans to provide coverage for screenings on adverse and positive childhood experiences. The measure allows the study to contain a cost-benefit analysis of such coverage, an examination of qualifications for providers, and an examination of screening procedures.
