**Committee Substitute (CS)**

The CS for SB 541 directs the Department of Wildlife Conservation to implement experimental pronghorn antelope hunting seasons beginning in 2020. The Department must designate areas in which the experimental seasons are implemented. Landowners may designate the harvest quota. Hunters must obtain written permission from the landowner to hunt on the land. A hunter must present his or her harvest at a mandatory check station, provided by the Department, within 24 hours of harvest.
