Bill Analysis

SB 56 changes truancy and attendance reporting requirements for virtual charter schools. The measure will now require virtual charter schools to submit truancy reports to the student's resident district. Virtual charter schools must also submit each student's attendance records to the student's resident district.

If a student fails to meet attendance standards or is withdrawn from the school for truancy and has not been re-enrolled, the measure requires virtual charter schools to notify the student's resident school district. The student's resident school district shall then notify the Department of Human Services.
