Bill Analysis

SB 670 authorizes active duty military personnel and their spouses to request in advance a temporary, reciprocal occupational license from the state upon receiving orders to discharge or transfer to Oklahoma. State agencies and regulatory authorities are directed to ensure the applicant for a temporary license possesses the equivalent education, training, and experience with a valid license or certification from another state. Fiscal Analysis

FY'20 Impact: None

Full Year Impact: None

SB 670 provides reciprocal temporary occupational licenses for active duty service members transferred or discharged in this state. The language allows agencies to provide a fee, which is assumed would be similar to existing license fees, so there should be no significant impact.
