Bill Analysis

SB 971 directs the Council on Law Enforcement Education Training to design training courses that include training related to sexual assault calls, guidelines for the collection and maintenance of sexual assault kits, and continuing education on trauma-informed sexual assault response and intervention beginning November 1, 2019. Such training shall be completed on a regular basis as determined by CLEET. The course will be included in the basic training services provided by the Council on Law Enforcement Education Training.

House Amendments

House Amendments to SB 971 remove the emergency and directs CLEET to design certain training courses related to assault, collection and maintenance of sexual assault kits, and trauma-informed response interventions. The measure also shortens the schedule by which CLEET must establish such courses from January 1, 2020, to November 1, 2019.
