

BILL SUMMARY
2nd Session of the 57th Legislature

Bill No.:	HB 3088
Version:	Committee Substitute
Request Number:	11446
Author:	Pittman
Date:	3/9/2020
Impact:	None

Research Analysis

HB 3088 allows hospitals providing inpatient maternity services and birthing centers to provide implicit bias training. Participating hospitals' maternal health care professionals must complete the training at least every two years and receive certification upon completion. The State Department of Health is directed to promulgate rules and track the results of the implicit bias training program, including infant and maternal mortality rates by race or ethnicity, age, and other relevant factors.

Prepared By: Anna Rouw

Fiscal Analysis

HB 3088 CS has no anticipated cost to the agency.

Prepared By: Stacy Johnson

Other Considerations

None.
