

BILL SUMMARY
2nd Session of the 57th Legislature

Bill No.:	HB 3801
Version:	FULLPCS1
Request Number:	10818
Author:	Rep. Phillips
Date:	2/25/2020
Impact:	No Impact

Research Analysis

The Proposed Committee Substitute for HB 3801 requires any governmental entity which transacts business on a webpage, which collects a consumer's personal data, shall state on the website the categories of information to be collected and the purposes for which it will be used.

Prepared By: Sean Webster

Fiscal Analysis

The measure relates to governmental entities that transact business online, requiring posting of information regarding the collection of personal information to be collected and the purposes for which such information is to be used. Notice must be given should additional categories of information be collected. Should a governmental entity sell consumer personal data the website must provide information on the categories of information about the consumer, the categories that would be sold, or not sold and any disclosure intentions.

While disclosures on websites are required under the provisions of the measure, no measureable fiscal costs are anticipated.

Prepared By: Mark Tygret

Other Considerations

None.
