

Bill Summary
2nd Session of the 57th Legislature

Bill No.:	SB 1696
Version:	INT
Request No.:	3276
Author:	Sen. Quinn
Date:	01/22/2020

Bill Analysis

SB 1696 creates the Surprise Billing Protection for Oklahomans Act. The measure defines surprise billing as a bill that a nonparticipating provider issues to a covered person for health care services in an amount that exceeds the covered person's cost-sharing obligation that would apply for the same health care services if these services had been provided by a participating provider. The measure also defines various terms associated with providing care, emergency and health care facilities, and insurance payments.
