13 pollution of the waters of this state, and in order to establish
14 state standards which comply with the Federal Water Pollution
15 Control Act as amended, the Oklahoma Water Resources Board is
16 authorized to promulgate rules to be known as "Oklahoma Water
17 Quality Standards" which establish classifications of uses of waters
18 of the state, criteria to maintain and protect such classifications,
19 and other standards or policies pertaining to the quality of such
20 waters.

21 2. The Oklahoma Water Quality Standards shall, at a minimum, be
22 designed to maintain and protect the quality of the waters of the
23 state.
24

1 3. Wherever the Board finds it is practical and in the public
2 interest to do so, the rules may be amended to upgrade and improve
3 progressively the quality of waters of the state.

4 4. a. The Board may also amend Oklahoma Water Quality
5 Standards to downgrade a designated use of any waters
6 of this state which is not an existing use, may
7 establish subcategories of a use or may provide for
8 less stringent criteria or other provisions thereof
9 only in those limited circumstances permissible under

17 state to comply with such new or modified standards unless such
18 discharges create an actual or potential hazard to public health.

19 3. Any discharge in accord with such standards of the Board and
20 in compliance with rules, requirements and wasteload allocations
21 established by the Department of Environmental Quality and with
22 rules promulgated by other state environmental agencies shall not be
23 deemed to be pollution.

1 4. Notwithstanding the implementation jurisdiction provided to
