HOUSE OF REPRESENTATIVES

State of Oklahoma

SPEAKER:

CHAIR:

I move to amend HB4362 _____
Of the printed Bill
Page _____ Section _____ Lines _____
Of the Engrossed Bill

By striking the Title, the Enacting Clause, the entire bill, and by
inserting in lieu thereof the following language:

AMEND TITLE TO CONFORM TO AMENDMENTS

Amendment submitted by: Brian Hill

Adopted: _____

Reading Clerk

STATE OF OKLAHOMA

2nd Session of the 58th Legislature (2022)

PROPOSED COMMITTEE
SUBSTITUTE FOR
HOUSE BILL 4362

By: Hill

PROPOSED COMMITTEE SUBSTITUTE

An Act relating to economic development; defining terms; creating the Oklahoma Center for the Advancement of Science and Technology Intern Partnership STEM Workforce Pipeline Program; authorizing Oklahoma Center for the Advancement of Science and Technology to administer program; providing for competitive internship funding for applicant organizations; requiring applicant organizations to submit certain information; requiring applicant organizations meet certain requirements; requiring Board to make certain findings before awarding funds; authorizing Oklahoma Center for the Advancement of Science and Technology to promulgate rules; providing for codification; providing an effective date; and declaring an emergency.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 5060.44 of Title 74, unless there is created a duplication in numbering, reads as follows:

A. As used in this section:

1 1. "Applicant organization" means an Oklahoma-based entity that
2 is a nonprofit research foundation or private enterprise of special
3 importance to the Oklahoma economy; and

4 2. "Eligible student" means an individual currently enrolled in
5 an undergraduate or graduate program at an institution of higher
6 education who is majoring in a science, technology, engineering, and
7 mathematics (STEM) based discipline including, but not limited to,
8 natural sciences, computer science, materials science, engineering,
9 biomedical, biotechnical, data analytics, finance, mathematics, or a
10 support area related to building successful Oklahoma high tech
11 companies.

12 B. There is hereby created the Oklahoma Center for the
13 Advancement of Science and Technology Intern Partnership for STEM
14 Workforce Pipeline Program to be administered by the Oklahoma Center
15 for the Advancement of Science and Technology under the governance
16 of the Oklahoma Science and Technology Research and Development
17 Board.

18 C. The Program shall award competitive internship funds,
19 through professional service contracts, to applicant organizations
20 to hire qualified student interns to participate in innovative
21 industry projects.

22 D. To qualify for Program internship funds, the applicant
23 organization must provide:
24

1 1. Documentation verifying that not less than fifty percent
2 (50%) of the total direct cost of the proposed project will be
3 provided by sources other than the Oklahoma Center for the
4 Advancement of Science and Technology and other state-appropriated
5 money. Such sources may be in the form of salary, cash, nonstate
6 grant funds, and other sources of funding as defined by the Oklahoma
7 Center for the Advancement of Science and Technology;

8 2. A description of the potential commercial application of and
9 the industrial sectors that will likely benefit from the project and
10 the potential to enhance employment opportunities in Oklahoma;

11 3. An itemized research budget, timeline, and research
12 methodology; and

13 4. Any other information that may be required by the Board.

14 E. The Board shall award professional service contracts after
15 it determines the applicant organization:

16 1. Provides a beneficial and meaningful intern experience which
17 includes exposure to real-world application of technology and
18 innovation activities;

19 2. Involves projects leading to innovation, new knowledge, or
20 technology that will benefit the applicant organization;

21 3. Has a reasonable probability to enhance employment
22 opportunities within Oklahoma;

23 4. Is technically sound, will produce a measurable result, and
24 provide a positive impact to the applicant organization; and

1 5. Does not involve market surveys or research activities that
2 create fundamental or basic information which lack the potential for
3 reasonably short-term commercialization.

4 F. Based upon the information submitted by the applicant
5 organization, external peer review, and such additional
6 investigation as the staff of the Center shall make, the Board may
7 approve such professional service contracts after the Board finds
8 that:

9 1. The proposed project is research that leads to innovation,
10 new knowledge, or technology and is not training or technical
11 assistance for business firms;

12 2. The project has a reasonable probability to enhance
13 employment opportunities within the state; and

14 3. The project is technically sound and will produce a
15 measurable result.

16 G. The Oklahoma Center for the Advancement of Science and
17 Technology shall promulgate rules necessary to implement and
18 administer the Program authorized in this section.

19 SECTION 2. This act shall become effective July 1, 2022.

20 SECTION 3. It being immediately necessary for the preservation
21 of the public peace, health or safety, an emergency is hereby
22
23
24

1 declared to exist, by reason whereof this act shall take effect and
2 be in full force from and after its passage and approval.
