C. The health insurer, its agents, including pharmacy benefits managers, and the Department shall not publish or otherwise disclose any confidential, proprietary information, including, but not limited to, any information that would reveal the identity of a specific health plan, the prices charged for a specific drug or class of drugs, the amount of any rebates provided for a specific drug or class of drugs, the manufacturer, or that would otherwise have the potential to compromise the financial, competitive, or proprietary nature of the information. B. For any violation of this section, the Insurance Commissioner may subject a PBM to an administrative penalty of not less than One Hundred Dollars ($100.00) nor more than Five Thousand Dollars ($5,000.00) for each occurrence. D. In implementing the requirements of this section, the state shall only regulate a PBM to the extent permissible under applicable law.

E. In complying with the provisions of this section, a PBM or its agents shall not publish or otherwise reveal information regarding the actual amount of rebates a PBM receives on a product or therapeutic class of products, manufacturer, or pharmacy-specific basis. Such information is protected as a trade secret, is not a public record as defined in the Oklahoma Open Records Act, Section 24A.1 et seq. of Title 51 of the Oklahoma Statutes, and shall not be disclosed directly or indirectly, or in a manner that would allow for the identification of an individual product, therapeutic class of products, or manufacturer, or in a manner that would have the potential to compromise the financial, competitive, or proprietary nature of the information. A PBM shall impose the confidentiality protections of this section on any vendor or downstream third party that performs health care or administrative services on behalf of the insurer that may receive or have access to rebate information.

SECTION 9. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 6970 of Title 36, unless there is created a duplication in numbering, reads as follows:

b. reasonable estimates of any negotiated price concessions, fees, and other administrative costs that

are passed through, or are reasonably anticipated to be passed through, to the insurer and serve to reduce the insurer's liabilities for a prescription drug.

B. An enrollee's defined cost sharing for each prescription drug shall be calculated at the point of sale based on a price that is reduced by an amount equal to at least eighty-five percent (85%) of all rebates received, or to be received, in connection with the dispensing or administration of the prescription drug.

C. For any violation of this section, the Insurance Commissioner may subject an insurer to an administrative penalty of not less than One Hundred Dollars ($100.00) nor more than Five Thousand Dollars ($5,000.00) for each occurrence. E. In implementing the requirements of this section, the state shall only regulate an insurer to the extent permissible under applicable law.

F. In complying with the provisions of this section, an insurer or its agents shall not publish or otherwise reveal information regarding the actual amount of rebates an insurer receives on a

product or therapeutic class of products, manufacturer, or pharmacy-specific basis. Such information is protected as a trade secret, is not a public record as defined in the Oklahoma Open Records Act, Section 24A.1 et seq. of Title 51 of the Oklahoma Statutes, and shall not be disclosed directly or indirectly, or in a manner that would allow for the identification of an individual product, therapeutic class of products, or manufacturer, or in a manner that would have the potential to compromise the financial, competitive, or proprietary nature of the information.
