Research Analysis

HB 1833, as introduced, prohibits action for nuisance against oil activities which have been lawfully in operation for two years or more prior to the action. In an action for nuisance brought against agricultural activities on farm or ranch land, the court would determine the amount of noneconomic damages separately from the amount of compensation for all other damages, and caps noneconomic damages at either triple the amount of compensatory damages or \$250,000, whichever is greater.

Fiscal Analysis

In its current form HB 1833 should not create a fiscal impact on the State's budget or appropriations as it is a statute of limitations bill.
