Research Analysis

The 2nd Proposed Committee Substitute for HB 1939 creates a definition for *commercial labor-only subcontractor* and a related commercial labor-only endorsement. The measure requires those subcontractors to be registered and have commercial labor-only endorsement, but specifies that they are not required to have commercial endorsement. The subcontractor must also be working under the direct supervision of a commercial roofing contractor with a commercial endorsement with full responsibility over the actions and performance of the subcontractor.
