

BILL SUMMARY
1st Session of the 58th Legislature

Bill No.:	HB 2380
Version:	Proposed Committee Substitute
Request Number:	7434
Author:	Davis
Date:	2/17/2021
Impact:	Please see previous summary of this measure

Research Analysis

HB 2380 allows alcoholic beverage licensees to provide self-pour automated devices for dispensing beer and wine. In order for a patron to use the self-pour service, they must obtain an RFID device or other ABLE Commission-approved technology from the licensee, which will give the patron a credit to dispense 10 ounces of wine or 32 ounces of beer. Licensees are required to provide constant video monitoring at all times during which the licensee is open, keep such footage for at least 60 days, and provide the footage upon request to any ABLE Commission agent or other authorized law enforcement.
