Fiscal Analysis

In its current form, HB 3902 amends several provisions of the Oklahoma Military Code, including creating the Oklahoma National Guard Museum Board of Governors to supervise and control the Oklahoma National Guard Museum. In addition, the measure provides certain powers and duties to the board, which includes establishing a budget annually or more often if needed and approving all claims and expenditures arising from operations and maintenance of the Museum. At this time, the changes are expected to result in a material change to the Military Department's budget; however, the exact amount is unknown.
