Fiscal Analysis

HB 4088 in its current form authorizes the Oklahoma Turnpike Authority (OTA) to extend certain turnpike loop. The measure authorizes such construction by OTA, it does not mandate such construction occur by a certain date. OTA does not receive legislative appropriations; therefore, it is assumed OTA would only engage in such construction as OTA generated resources become available. For these reasons, HB 4088 in its current form has no direct impact on the state budget or state revenues.
