Research Analysis

Engrossed SB1034 renames the Committee for Sustaining Oklahoma's Energy Resources to the Legacy Oil and Gas Well Innovation Committee. The measure removes a requirement that the committee be operated under the direction and supervision of the Oklahoma Energy Resources Board, but the committee will continue to operate within OERB. The measure changes the size and appointing authority of the members of the committee.

Fiscal Analysis

SB 1034 creates the Legacy Oil and Gas Well Innovation Committee. The Secretary of Energy, believes that any fiscal impact to its budget will be small and related to potential travel outside the Oklahoma City metropolitan area.

The Oklahoma Energy Resource Board was unsure of any potential impact from SB 1034.

Neither entity is an appropriated entity. Therefore, it is unlikely there will be a fiscal impact to the State.
