**Research Analysis**

SB 1248 allows county commissioners to establish a direct deposit payment system to pay county employees.

**Fiscal Analysis**

SB 1248 in its current form authorizes county commissioners to implement a direct deposit payment system for county employees. The authorization is permissive; therefor, counties would be expected to not chose to transition to such a payment system unless adequate county resources were available. The measure has no direct fiscal impact on the state budget or state revenues.
