BILL SUMMARY
2nd Session of the 58th Legislature

Bill No.:	**SB 1610**
Version:	**FA1**
Request Number:	**11468**
Author:	**Rep. Sterling, Rosecrants, and McBride**
Date:	**4/27/2022**
Impact: Please see previous summary of this measure	

Research Analysis

The floor substitute to SB 1610 requires the Oklahoma Turnpike Authority to conduct a study and create a report consisting of certain information in regards to the proposed construction of the South Extension Turnpike, Outer Loop-East-West Connector Turnpike or any part of the turnpike that would pass through any portion of the City of Norman. The Oklahoma Turnpike Authority should give two copies of the completed study and report to the Governor, President Pro Tempore of the Senate and the Speaker of the House of Representatives at least one year prior to issuing bonds for the construction on the turnpike or turnpike extensions mentioned above. The Legislature has the authority to modify the authorization for construction or the location of the turnpike.

The report should include the following:

- Factors that were considered when determining the route for the turnpike or turnpike extensions mentioned above;
- Whether the proposed route was determined to be the most effective regarding the flow of traffic and a discussion as to the factors considered in making that determination;
- Specific impacts and effects that the planned route will have on the businesses, citizens, and private and public property where the planned route will be implemented;
- Whether any alternate routes were considered by the Authority and the factors considered as to why the alternate routes were not chosen for the turnpike or turnpike extensions mentioned above; and
- Any other factors relevant to the decision of the location of the turnpike or turnpike extensions mentioned above considered by the Authority.
