Fiscal Analysis

According to the Oklahoma Department of Wildlife Conservation, the higher estimate of the revenue increase this may bring into the agency is seventy-eight thousand, seven hundred fifty dollars (\$78,750.00). This is based on the number of cases and revenue brought in over the last 3 years compared to the maximum fine allowed under this measure

	Previous Years Actual Totals	Estimates Based on Increase Fine Amounts	Difference
2019 – 39 Cases	\$9,750.00	\$39,000.00	\$29,250.00
2020 – 45 Cases	\$11,250.00	\$45,000.00	\$33,750.00
2021 – 21 Cases	\$5,250.00	\$21,000.00	\$15,750.00
Total	\$26,250.00	\$105,000.00	\$78,750.00

The changes in this amendment do not affect the fiscal impact of the measure according to ODWF.
