Fiscal Analysis

The house floor amendment to the senate measure would allocate four judgeships for judicial district number five and six judgeships for judicial district number 21.

Upon review, no direct fiscal impact to the state is anticipated from passage of the measure. Judicial district number five currently has five judgeships and judicial district number 21 has five judgeships. The measure would move one judgeship from district five to district 21, having no affect on the total number of judgeships in the district court system.
