Bill Analysis

HB 2382 defines a street-legal utility vehicle as well as authorizes a street-legal utility vehicle to be registered as a motor vehicle and operated on roadways. The vehicle may not be operated on the interstate highway system or U.S. highways. The vehicle must be issued a certificate of registration, license plate, and yearly decal from the Tax Commission and be registered annually. The measure creates a 5-day temporary tag for out-of-state owners of street-legal utility vehicles.
