Bill Analysis

HB 2511 requires every manufacturer of a vapor product sold or intended to be sold in the state to deliver to the ABLE Commission an attestation certifying that the product was available for purchase in the United States as of August 8, 2016, and the manufacturer has applied for a marketing order from the FDA on or before September 9, 2020, or that the manufacturer has received a marketing order or other authorization from the FDA. The measure further requires manufacturers to notify the ABLE Commission within 30 days of any material change to the attestation, and directs the ABLE Commission to develop a directory listing of all manufacturers and their vapor products that have provided attestations. Any vapor product not in the directory is prohibited from being manufactured, distributed, sold, bartered or furnished in the state.
