Bill Analysis

HB 3439 authorizes hemp licensees to remediate noncompliant industrial hemp with a delta-9 tetrahydrocannabinol concentration of not more than 1% on a dry-weight basis for retesting provided the hemp has a delta-9 tetrahydrocannabinol concentration of not more than 0.3% on a dry-weight basis after retesting and the option to remediate the industrial hemp through the reasonable destruction of the flower or shredding of the entire lot into a homogeneous biomass results in the remediation of any part of the industrial hemp plant that is above 0.3%. The measure also provides for remediation facilities to be constructed or owned by licensees. Any hemp with a concentration above 1% must be disposed of. Licensee are also authorized to sell hemp for livestock feed without the flower.
