**Bill Analysis**

SB 1228 provides that the Oklahoma Legislature may transfer funds received from the federal government in response to the COVID-19 pandemic to any southern state bordering Mexico to support border security. Supporting border security may include supporting completion of the border wall. Such a transfer shall be accomplished by joint resolution. The Legislature shall specify the amount of funds to transfer and the specific state to receive the funds. Funds received by the state while the Legislature is not in session shall not be transferred unless the transfer has been authorized by a joint resolution in the previous session or until the enactment of a joint resolution in the next session. The measure directs the Director of the Office of Management and Enterprise Services to coordinate with appropriate officials in the receiving state or states to effectuate the transfer of funds.
