Bill Analysis

SB 1356 exempts records connected to the security of electrical or dam infrastructure and related information systems that, if misused, could interfere with, attack, compromise, or incapacitate the infrastructure from the provisions of the Oklahoma Open Records Act. Additionally, the Grand River Dam Authority may exempt information from its contractors, suppliers, and customers as confidential books, exempting such records from the Act. Proprietary or commercial information received subject to a nondisclosure agreement or confidentiality agreement shall also be exempt.
