Bill Analysis

SB 1365 directs the Oklahoma Supreme Court to establish a Municipal Court Disclosure System pilot program to create a court records disclosure system similar to the Oklahoma On Demand Court Records system utilized by tribal and district courts. The program shall be comprised of municipal courts in a single county. Participation in the program shall be voluntary. During the pilot period, municipal courts may assess up to a \$5.00 public disclosure fee on top of all other convenience fees. Municipal governments with a municipal court may contract with a third party to collect, disseminate, or input conviction data into the system developed by the Supreme Court.
