Bill Analysis

SB 1504 provides that programs of specialized activity or instruction for children that are not designed or intended for child care purposes exempted from the provisions of the Oklahoma Child Care Facilities Licensing Act must not operate more than 10 hours per week. The measure also strikes the exemption provided to child care facilities that provide care and supervision for school-aged children only in a center-based program for 21 or fewer hours a week located in counties with a population of less than 100,000.
