Bill Analysis

SB 1505 directs school district boards of education to adopt a policy allowing a parent or legal guardian to observe a class in which his or her child is enrolled or shadow the child during a school day. It directs the policy to include a requirement that the parent or legal guardian submit a written request; a requirement that the principal of the school site approve or deny the request within two weeks, and if the request is denied, it allows an appeal to the school district board of education; and a requirement that the observation or shadowing be conducted with minimal interference to the school's learning environment and with all due consideration to the safety of students and school district employees.
