

Bill Summary
2nd Session of the 58th Legislature

Bill No.:	SB 1530
Version:	INT
Request No.:	3238
Author:	Sen. Dahm
Date:	01/21/2022

Bill Analysis

SB 1530 creates the Parental Rights Immunization Act. The measure requires each health care provider who administers a vaccine to obtain informed consent from the legal representative or other adult authorized by law to consent on behalf of a minor prior to administering the vaccine. Such providers must also provide relevant information regarding benefits and risks of the vaccine as well as information concerning the National Vaccine Injury Compensation Program. The measure specifies that providing a copy of the Vaccine Information Statement, and making available for review the Centers for Disease Control and Prevention's "Epidemiology and Prevention of Vaccine-Preventable Diseases: Vaccine Excipient and Media Summary", the Centers for Disease Control and Prevention's Vaccine Injury Table, or the Centers for Disease Control and Prevention's Contraindications and Precautions or any combination of these sources available to the adult or guardian shall constitute a minimum standard of relevant information.
